

CONTRACT MANUFACTURING

TOP QUALITY –
due to highly qualified
employees and
state-of-the-art
machining centers

GLOBAL. AHEAD. SUSTAINABLE.

CNC MILLING / TURNING

On our state-of-the-art 3 and 5 axes CNC machines we manufacture simple or complex parts as well as complicated batch production.

By using a CAD/CAM system (Hyper Mill) highly complex parts in a whole variety of materials can be programmed out of the 3D model.

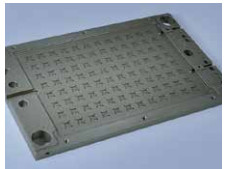

You provide your CAD data and we convert them to a CNC program.

File formats:

- for drawings: preferably DXF, DWG
- for 3D models: preferably STEP, SAT and IGES

If you cannot provide 3D files we are also able to program according to your drawings.

We mainly manufacture for the areas mechanical engineering, medical engineering and automotive engineering.

EQUIPMENT CNC MILLING / CNC TURNING

CNC Milling

- 1x DMG MORI DMF 260/7, 5 axes, 2,600x700x700 mm
- 3x Hermle C30, 5 axes, 650x600x500 mm
- 1x Hermle C600V, 3 axes, 600x450x450 mm
- 1x Hermle C800V, 3 axes, 800x600x500 mm

CNC Turning

- 1x Kern DMT, CD401, Ø 200x650 mm
- 1x Maho Graziano, GR400C, Ø 300x650 mm

THE COMPANY

SCHILLER AUTOMATION was founded in 1978 and is today one of the leading suppliers of integrated automation, process and system solutions. The company focuses on assembly lines for the automotive industry and medical technology. SCHILLER is particularly strong in the holistic approach to a wide variety of tasks - from the initial product idea to series production readiness. The focus is on engineering, manufacturing, assembly and commissioning of automation solutions - complemented by after-sales and customer support services.

Site Sonnenbühl

STRONG TOGETHER, TOGETHER EVEN BETTER

On 01 January 2022, the Kurtz Ersa corporation took over SCHILLER AUTOMATION GmbH & Co. KG to 100%. Kurtz Ersa's global competence has thus been complemented by 43 years of experience in the construction of special machines for the automation of production processes. From now on, Kurtz Ersa and SCHILLER AUTOMATION will jointly appear on the market for automation solutions and develop creative ideas and technologies into sustainable solutions for your tasks.
